Terms & Conditions Apply

The security application has been developed to improve the safety and security of you and your family. All emergency signals are connected to Halt Alarms control room for maximum security and faster response times. This emergency panic application will allow Halt and other emergency services to respond directly to your exact location.

MOBILE PANIC SERVICES

A personal emergency distress signal, GPS tracking service and an emergency information aid.

HOW IT WORKS:

1. Press the panic button on the app.
2. A signal with your GPS coordinates is transmitted.
3. Our 24 hour control centre pinpoints your exact location.
4. A range of emergency services are activated.
5. Emergency services are dispatched to your GPS location.
